

Partnerships Manager, Robogals EMEA

Robogals

Robogals is an international, not-for-profit organisation that aims to inspire, engage and empower young women into engineering and related fields. This is achieved through fun and educational initiatives aimed at girls in primary and secondary school. Since its inception in 2008, Robogals has engaged over 59,000 girls around the world.

The Role

Robogals EMEA is seeking a new Partnerships Manager to support the growth of the EMEA region and lead the EMEA regional team. Candidates will have a passion for inspiring girls and women about careers in engineering and building a culture of diversity and inclusion in engineering.

In the EMEA Region we currently have 13 chapters, each of which is tied to a university. As EMEA Regional Partnerships manager your role would be to look into funding opportunities so that we can continue to offer free workshops. You would also work to make connections with partners that have similar goals to us that Robogals could collaborate with.

You would be a part of the EMEA regional team. This is a remote team but you would be in regular contact members of the team. Any individual taking up the role has a great opportunity to meet like minded people across multiple organizations who are passionate about diversity and establish contacts within businesses. This role would be well suited to someone in education looking to bridge the gap between studying and future employers.

The Partnerships Manager's responsibilities will include:

- Liaising between Robogals and partners and sponsors
- Attending events, such as conferences, to meet potential new partners
- Researching potential grants and funding opportunities
- Creating Sponsorship/Partnerships proposals
- Working closely with the Regional Mentoring team regarding chapter partners

Application Process

This is an unpaid voluntary role, we are looking for someone who can commit roughly 3-5 hours a week and is enthusiastic and eager to learn new things. This role is open to all genders. If you are interested in applying, please contact ami@robogals.org.
